Mint of the United States at Philadelphia, Pa.,

SUPERINTENDENT'S OFFICE.

June 2 1891.

Hon. A. C. Matthews

First Comptroller

Treasury Department

Washington, D.C.

Sir:-

Referring to bill of Elias Pohl for Walnut Lumber in February last, returned from your office for perfecting of signature, I have to say that Mr. Pohl was at that time, had been for days, and I believe still is, unable to do any business whatever. Mrs. Pohl had a general Power of Attorney which her lawyer brought to the Mint, and I accepted it in default of better. As I do not think I can get Mr. Pohl's signature I return bill with this explanation for file.

Very Respectfully,

A. L. Boerstler

Superintendent

June 2 1

Sir:-

I send forward coins received for special tests this day, namely:

Two (2) Std S. Dollars Del. #129
Two (2) Hf " " #130

Sir:

Permit me to return you a quarter of latest date in place of that sent to cover despatch of yesterday, and to say in explanation that the telegram was charged into my a/c by the Company as official.

It is not often that such thoughtfulness is manifested, and while assuring you that it is properly appreciated I will ask you to receive the enclosed quarter as a refund, there being no a/c to which it can be carried.

Very Respectfully

HON. EDWARD O. LEECH,
DIRECTOR OF THE MINT,
WASHINGTON, D.C.

Sir:-

Although according to Form 232, month of April I had on hand $84.140.26 profits arising from the coinage of subsidiary silver, there is not, at this time, in the ap of the Cashier to exceed $30.000 in subsidiary silver coin.

The Treasurer has transferred our available funds in that ap to the margin indicated foregoing. May it not be well for the Treasurer to increase his silver bullion fund in the sum of the profits, namely $84.140.26 — by a transfer and %, leaving it a matter of accounting?

How can I deposit in kind when the Treasurer transfers as rapidly as I can turn out?

Very Respectfully,

Sir:

Referring to your telegram of even date relative to outturn of Dimes, I have to say, that with the delivery this day (already shipped) the coinage of dimes for June, current is $101.000.

As we are restricted to uncurrent coin metal the delay has been caused by the want of such metal against which to charge deliveries. We have now only $64.000 remaining of "uncurrent" bullion all of which will probably be coined this week. The uncurrent coin is generally in bad condition, has to be assorted and counted by tale, and then weighed by denominations to the Melter & Refiner. All this entails delay.

Only $37.000, orders, remain unpaid.

Very Respectfully,

All subsidiary coin charged up in May against trade dollar bullion was from ingots and blanks, light and heavy, made from trade dollar bullion, and on hand on the 7th of May, ultimo.

Must this coinage be charged up against uncurrent coin transferred?

Hon. E. O. Leech,

Director of the Mint,

Washington, D.C.

Sir:-

I have the honor to transmit herewith, bids for supplies for the fiscal year ending June 30th 1892, properly scheduled, and have indicated upon the latter the lowest bidder by encircling the price with red ink. Where two or more bids are alike, they ~~are~~ are all scored. In accepting these bids permit me to make the following suggestions.

In Class 2, Friedenstine of New York is the lowest for copper ingots for alloy. There is only one other bidder. We will have to be very careful as to this copper. I only call attention to it on account of its importance. Mr. F. can probably furnish just what is wanted.

Class 6. Coal is an important article. Patrick & Lipsett bid $4.73 for Highland, Downing Bros., $5.00. The Melter & Refiner requires the pure article, it has a standard price, and I doubt whether P. & L. can furnish it at their bid. Downing Bros., offer at price Lehigh Company sell and I would recommend that the contract be awarded to them.

E.C.L. No.2 6/13/91.

Class 7. In the matter of Charcoal I am told that the Phila. Charcoal & Fuel Co., is only another name for a man named Gardy, who used to furnish a very inferior article and short weight and Mr. Fox was obliged to suspend him and finally took the contract from him and gave it to Mr. Rowand. I would recommend the contract be given Rowand.

Class 16. I would recommend that the contract for supplies under this class be awarded to Robt. J. Taylor and Sons, as their articles we know to be just what we require.

Class 18. An important article in the Coiners cleaning room is the kind of Borax Soap used. A test of samples has been made, and not any of them answer so well as G. W. Borst's. Mr. Borst' bid is the highest, but it is the best. I know, from my own experience when I was the Coiner, that the best results were obtained from Borsts' Borax Soap, and I unhesitatingly recommend that he be awarded the contract.

Class 20. Mitts. The bids are alike. Mrs. Annie Black has been furnishing these mitts for several years, very satisfactorily. She is the widow of a soldier and I recommend that she be awarded the contract.

Class. 25. We have never required any bond from Mr. Lynch. He is an honest man and has always furnished the specie kegs and heads just as required. His bid is low and it seems a

E.O.L. No.3, 6/13/91.

hardship to put him to the expense of bonds.

Class 26. All the bids for ice are alike. The Commercial has furnished the Mint for some years very satisfactorily and I recommend the award to that Company.

All of which is respectfully submitted for your action.

Please return accepted schedule in time for us to notify accepted bidders before the 1st proximo.

Your obedient servant,

Sir:

In further reply to your letter of June 9th in reference to requisition for funds for the current month, I have to say that none was made for the time being, for Incidentals Ordinary Appropriation, because, I thought that the funds on hand, would be sufficient to meet my expenses on that account to near the close of the present month; fully expecting to make additional requisitions for funds as they were needed, while my Supplemental account remained open.

As I expect to use the entire balance of the Appropriation herein named, in making necessary repairs &c, during the Annual Settlement, I shall need nearly all of the balance of money now in my hands on account of Coinage of

Silver Bullion, for the payment of Wages and Incidentals, properly chargeable to that account say; Wages $4.000 to $5.000 — Incidentals $3.700 to $4.000; and I do not think it advisable to deposit any of this Appropriation in the Treasury, unless you direct that the Incidentals shall be charged to the Ordinary Expenses Account; which of course would entail my expenses on that account, already provided for.

I find in examining my account, that the balance of Contingent Expenses to my credit in the Treasury, is $7.780.49 and not as you state $7.830.86, the difference of $49.87 no doubt being accounted for, in the item bill for transportation, one Adjusting Machine from San Francisco, to Ogden, which you notified me under date May 28th ultimo, having as, been charged to my account, and probably omitted to be entered on the books of your Bureau.

A recent Act of the Legislature of this State defining the days and times that shall be considered as legal holidays, sets forth Saturdays after 12 o'clock M, between the fifteenth days of June and September in each year.

Under the regulations Sec. 18 page 35, I presume this Institution will close within the dates named at 12 M on Saturdays.

Next Saturday, 20th inst, will be the first to come under the law, and unless otherwise directed I will comply with the new order of things. I do not think it will, at all, materially effect the output of this Mint.

Sir:-

Referring to your letter of a few days ago relative to our engravers preparing some designs for the subsidiary silver coins, I have the honor to state that it would be very much more satisfactory all around if we could have you here and devote an hours talk on this subject. Mr. Barber thinks and so do I that before any new design are decided it would be well to send the lelips of all cavilleros. The New York artist were given an equal chance with all the other artists in the country at the recent call for designs but as you are aware they declined to furnish any on the ground of scarcity of time. They had every chance I think and no one should criticise you if you proceed with the artists of this Institution. However while they, Mr. Barber and his assistants, are at work on designs it might be a good thing to ask these New York artists to send you sketches. Our engravers will model them and if anything of merit results it can be used. We could waste a great deal of time in correspondence that an hours talk would do away with. When will you be over?

Referring to your letter of June 13 inst., relative to gold Bars Exchanged for gold coin with "H. L. Roberts, Secy & Treasurer", I have to say that Mr. Roberts is Secretary and Treasurer of The Keystone Watch Case Co., a large manufacturing establishment in this city.

The fair presumption is, that, as Mr. Roberts is engaged in making watch cases on a large scale he procured the bars for that purpose. Otherwise you would have been promptly notified of the extraordinary augmentation of his orders.

Sir:-

Referring to your letter of June 15th, relative to exchange of gold bars for coin, I beg to say that I have never taken orders from the Newspapers, and whatever special instructions based upon the Secretary's order to the New York Assay Office have been received at this Mint.

On the contrary my understanding of that order was that it was intended to check the importation of bar gold at the cost of the government and possibly to its embarrassment. I have furnished gold bars for gold coin to no party not engaged in manufacture, or who is not well known to me. The only persons who order gold bars in exchange for coin are-

Keystone Watch Case Co. Phila.

Whitely & Jacobs Refiners Phila.

H. Muhr's Sons, Mfg Jewelers, Broad St. Philen.
Hastings & Co Gold Beating (the largest in America) Phila.
Simons, Bros. & Co Mfg Jewelers. "
Powers & Weightman, Mfg Chemist "

My letter of yesterday will disabuse your mind of an error concerning H. L. Roberts, Leaf & Treasurer. Every man of these customers has stated that all bars ordered have been for their use in the arts they severally represent.

I regret that there should have been any failure to impose charges on exchange bars, and if there is any way to amend the record, and you will indicate it, the Bookkeeper will comply. But the fact that no orders were issued to this Mint touching charges on bars Exchanged for use in the arts, should, I conceive, furnish an excuse for the omission.

Very Respectfully,

O. C. Bosbyshell

Referring to the bids for Acids and Chemicals, the Jayne Chemical Company bid on Nitric Acid only. Their bid is 5 cents a hundred pounds less than Harrison Bros. & Co., who have been furnishing it for years, and who are lowest on Oil of Vitrol. We do not want to open accounts with two parties, and the Melter & Refiner prefers the Harrison Acid to the Jayne. I would therefore recommend the award for Nitric Acid be given to Harrison Bros. & Co. So far as the Melter and Refiner is concerned he has no suggestions to make in regard to any other of the chemical bids; all lowest bidders are respectable parties.

Hon. E. O. Leech,

Director of the Mint.

Sir;

Pardon me for again referring to the matter of Saturday half holiday, in response to your favor of 15 inst.

Under the regulations governing this institution, 3 o'clock P.M. Saturdays is the time for closing the year round. See Sec. 3, Art. 39. page 33.

Now as to the new State law making a legal holiday of Saturdays at 12 o'clock noon, from June 15 to Sept. 15, the regulations say in defining holidays for closing the institution, "and on days which are by State law legal holidays in the State or Territory where the institution is located." See Sec. 15 Art.

Cy page 35. This certainly governs this institution, as these are the regulations under which it is conducted. To carry these out, it is my duty to close at noon next Saturday, and on every Saturday until Sept. 15th. I wrote you, so you might be informed of the new law. Of course if you require the institution to remain open until 3 P.M. I will so direct, and it will be cheerfully complied with.

Sir:-

Mr. George T. Morgan our assistant engraver recently received a letter from his brother in England, in which he casually states that it is the intention of that government to alter the designs on their coins. He says that the authorities there have appointed a committee of artists to prepare and submit designs for coins. The names of the artists have been kept secret. He also says that the matter was publishedin some of the English newspapers Mr. Barber has been scanning these papers but has failed to discover the article mentioned by Mr. Morgan's brother. It occurred to me that if you were to apply to the Royal Mint in London as to the correctness of this, they would probably let you know how they intended to secure satisfactory designs, and in this way you might be able to help yourself in determining upon our new designs.

Your obedient servant,

Hon. E. O. Leach,

Director of the Mint,

Sir :-

I have the honor to transmit herewith, bids for supplies for the fiscal year ending June 30th 1892, properly scheduled as as well as a schedule of awards as made should you approve. In accepting these bids permit me to make the following suggestions.

In the matter of Nitric Acid, the award has been made to Harrison Bros. & Co., because the Melter and Refiner prefers their make to that of H. W. Jayne & Co., the lowest bidder. See his letter of 18th inst.

Highland coal is an important article. Patrick & Lipsett bid $4.73, Downing Brothers $5.00. The Melter and Refiner requires the pure article, it has a standard price, and I doubt whether P. & L. can furnish the pure article at their bid. Downing Bros., offer at price Lehigh Company sell, and I would recommend that the contract be awarded to them.

In the matter of Charcoal, I am told that the Phila. Charcoal & Fuel Co., is only another name for a man named Gardy,

who used to furnish a very inferior article, and gave short weight. Mr. Fox was obliged to suspend him, and finally dismissed him, and gave the contract to Mr. Rowand. I would recommend the contract be given to Rowand.

I would recommend that the contract for crucibles be awarded to Robt. J. Taylor and Sons, as their articles we know to be just what we want.

An important article in the Coiner's cleaning room is the kind of Borax soap used. A test of samples has been made, and not any of them answer so well as G. W. Borst's. Mr. Borst' bid is the highest, but it is the best. I know, from my own experience when I was Coiner, that the best results were obtained from Borst's Borax Soap, and I unhesitatingly recommend that he be awarded the contract.

Mitts. The bids are alike. Mrs. Annie Black has been furnishing these mitts for several years, very satisfactorily. She is the widow of a soldier and I recommend that she be awarded the contract.

We have never required any bond from Mr. Lynch who bids for kegs and keg heads. He is an honorable man and has always furnished these articles just as required. His bid is low and it seems a hardship to put him to the expense of bonds.

E.O.L. No. 2, 6/23/91.

All the bids for Ice are alike. The Commercial has furnished the Mint for some years very satisfactorily and I recommend the award to that Company.

All of which is respectfully submitted for your action.

As these schedules have been made out under some difficulties I shall be glad to have that of awards, and the "proposals" returned, in time for us to notify accepted bidders before the 1st proximo.

Very respectfully,

Your obedient servant,

Superintendent.

I send herewith $D^{\#}$ 7929 a/c Appropriation for Coinage of Silver Bullion, Act of July 14. 1890, in partial compliance with your request of June 9. inst.

The Bookkeeper cannot make the allowance for wages beyond the Ordinary Appropriation less than the rolls indicate, and making such allowance the deposit falls to $4000. You suggested $6000 as a minimum, but that would necessitate a return of funds from the Treasury. I trust this will prove satisfactory, and that you will honor my requisition for $7.500 Ord. In explanation of the telegram of the Superintendent sent forward yesterday (June 25) advising you of a slight fire that occurred in the attic above Ladies' Dressing Room, I beg to say, that the fire caught from the roofer's furnace, probably a charcoal spark, and was confined to a small area near the ventilator. The Insurance Patrol made some havoc with the roof, but it was put in good order to stand weather by six o'clock last night.

The damage is much exaggerated by the newspapers. It will not exceed $100, and may be less. The fire did very little damage, water and axes more. The doors were promptly closed, and all approaches guarded on the breaking out of the fire.

Sir.

Referring to article 20. of the Regulations, I have the honor to request, that you will define it for my information, as to the accounting for wastage and loss on sale of sweeps.

The question in point, is, shall any wastage or loss on sale of sweeps be offset by any surplus Bullion in my hand, as far as it goes, the remainder of the loss, if any, to be accounted for, as per Section 2nd of same article? or is any surplus Bullion to be used simply in the loss on Gold in sale of sweeps, or Gold wastage?

The forms. Nos. 211. 212. 213. provided for the purpose, seem to imply, that any surplus is to be used only in case of Gold wastage, and loss on Gold in sale of sweeps.

Section 2nd of Article 10, seems to conflict somewhat with the above quoted Regulations, but I am clearly of the opinion, that a strict compliance with Article 20, of the Regulations, requires me to use any surplus Bullion, as far as it will go against any wastage, or loss on sale of Sweeps, whether it be either Gold or Silver and if any loss still remains unaccounted for, that I am then to account for it according to Section 2nd Article 20.

As I await a reply, before reimbursing the accounts for loss on M & R's Sweeps, sold during the present Quarter, and which under the Regulations must be made by June 30th - a speedy answer is respectfully requested.

Very Respectfully

SUPERINTENDENT'S OFFICE,

HON. EDWARD O. LEECH,
DIRECTOR OF THE MINT,
WASHINGTON, D. C.

Sir:

Referring to your letter of June 27. inst. enquiring respecting a diminution of trade dollar bullion during the current month, I beg to say that only the ingots for Quarter & Half Dollars, and the light and heavy coins struck from that bullion, and on hand May 7. ultimo when your letter of May 6 reached this office, have been coined up, and charged up against that op.

I wrote you on the 13th inst, in reply to yours of the day previous, intending fully to explain the use of trade dollar bullion in subsidiary coinage after your instructions of May 6 were received. In that letter you say: "You will not use any portion of this [trade dollar] bullion in the coinage of subsidiary silver coins after the present stock of ingots prepared from this [trade dollar] bullion has been used

up"; and your instructions were at once imparted to the coiner and bookkeeper, and obeyed, strictly, from that time forward.

As not all of the ingots from that metal were used during May the coinage of June shows that some trade dollar bullion was coined into dimes, quarters, and halves. But a large part of this was coined in May, but not in the proportions allowing an adjustment by drafts of from. Hence, the ingots remaining on hand May 7, and not used, were used to get such returns in coin as would permit the coiner to utilize his "lights" and "heavies". I beg to assure you that not an ounce of trade dollar bullion not already in subsidiary process has been used since May 7. ultimo.

June 29 1871.

Sir:-

Referring to your letter of instructions of June 27, inst, I beg to say that there is nothing ambiguous about the instructions, and that they will be followed strictly. I will say, however, that the entire profits on dollar coinage of trade dollar bullion now on hand (1.326.757.57 Std oz) will not exceed $20 000.

As you suggest, I will have gold coined at such times and in such amounts as will keep the adjusters employed, yet not interfere with the coinage of dimes.

As the profits on Std coinage have or soon will be deposited, and added to the bullion fund, I have no funds available for the payment of transportation of Std dollars. Nor have I any funds for payment of transportation of dimes, if the usual rule to deposit profits at close of fiscal year be followed.

E. O. S.
6/29/91

The profits on Coinage of Standard dollars will not pay transportation and distribution expenses and how much may go for wages.

I merely make these suggestions for what they may be worth in providing for the future.

Sir:-

I return schedule of awards for supplies for the current fiscal year, corrected according to the proposals wherever it was in error, duly attested by the Superintendent and three operative officers as provided by Section 6 Article 26, Rules and Regulations

I have accepted the boneash offerred by H. Landenberger at 6 1/4 cents per pound, for the Assayer. He cannot make cupels of the cheaper article used by the Melter and Refiner, which I have awarded to Chas. Cooper & Co., at 4 1/2 cents per pound. I have also awarded saltpetre to F. R. Jordan & Sons at 5 45/100 cents per pound. The award for spittoons has been made to Thos. G. Hood at $8.90 per dozen, as you indicated, though his bid is for 9" spittoons while our sample was for 10 1/2". The 9" will probably do.

The clerical errors have been corrected and the awards compared with the bids. You say that the schedule of bidders does not show a number of articles awarded to E. A. Hollis. I have added such specific articles in so far as I have found them, but

E.C.L. No.2. 7/1/91.

desire to say, the bids for hardware are not specifically stated in the advertisement, and many things are offerred which we never use at all. The bid of Mr. Hollis is for full line; and when the contract books are made up here his "accepted" offers are entered from his proposal item by item, and a copy lodged with the warrent clerk who certifies to prices in bills rendered. Price lists are given him and discounts indicated. The proposals are filed with bonds, and I do not see how any question can arise about prices. In the matter of duck, muslin, ticking and gingham I have not scheduled offers of grades we do not use, but only such grades as are acceptable by samples furnished. To schedule offers of goods not called for would only confuse. Mr. Gary, of Baltimore, offers the best eight ounce duck at lowest price, because he is a producer, and all of the other bidders are middlemen. See notes on schedule of bids in red pencil. I return the schedule that you may note the corrections and additions made.

I desire to say that upon further examination I have awarded the contract for Highland Broken Coal to Patrick & Lipsett the lowest bidders.

Your obedient servant,

Your Obedient servant,

Superintendent

Mint of the United States at Philadelphia, Pa.

SUPERINTENDENT'S OFFICE.

July 6th 1881

Hon. A.W. Smyth,

Superintendent, Mint U.S.

New Orleans.

My dear Sir;

Your favor of 2nd inst. at hand -

I will answer your inquiries seriatim -

1. The speed of the Dolla press or Dime, ought not to exceed 100 per minute. We find 80 per minute of Dollars, to give the best results, but this might be increased 20 more on dimes without injury - We use small presses for dimes, and run them from 100 to 120 per minute. In 1876, the then Coiner of the Mint at San Francisco, thought he could achieve better results by speeding a small press on dimes to 150 per minute, and directed it to be done, against the

advice of the practical men. A million dollars was put through at the rate named, and the entire million was afterwards deposited in the melting pot. Many of the pieces were good, but so many of them were bad that time was saved by destroying the entire batch. A similar experiment was tried at the same Mint, by speeding a dollar press to 100 a minute on trade dollars, but it was not found to result successfully. Time must be given for the proper examination of planchets going into the tube, and for watching the coin for cracked dies &c

2. We anneal dime strips three times. The ingot goes through the breakdown rolls eight times, and is annealed. Then three more drafts on breakdown rolls. Then another annealing, and two drafts on finishing rolls, and a finial annealing. The strips are then

passed through break down draw-bench, and then through finishing draw-bench. A dime ingot gets therefore 13 drafts at rolls, and 2 at draw-benches.

3. A planchet cut from a rolled dime strip should weigh $43^{58}$ or $44^{58}$ grains - or in other words from 5 to 6 grains heavy of standard. Hence we allow the draw-benches to reduce the strips so each planchet would weigh 5 to 6 grains lighter than if punched from strip before going through draw-benches.

4. We have been using a double punch for dimes for a good many years. It is arranged to cut diagonally - thus:- 
5. As to anything else you ought to know, I am somewhat at a loss exactly what to say. The matter of counting is somewhat tedious. The allowance in drafts of $1000 is one hundredth of an ounce - In fact we never have any deviation

Dr. S. 7/6/91 4.

in our $1000 draft, because great care is exercised in putting lights and heavies together so that $1000 weighs standard. In putting up dimes, lots of one hundred dollars are counted on a counting board, and these are separately weighed, and the deviation marked on a piece of paper, which is dropped in the pan holding the $100. When the entire lot is thus separated in lots of $100, the Counter puts ten of them together, taking care that those deviating light of the standard, have sufficient deviating heavy of standard to bring the ten exactly to standard. If there is any thing else suggests itself to you, or there is any matter not made plain dont hesitate to call on me as often as you wish.

Very truly yours

O. C. Bosbyshell

Superintendent.

HON. EDWARD O. LEECH,
DIRECTOR OF THE MINT,
WASHINGTON, D.C.

Sir:

In view of the general impecuniosity of the Mint employes at this particular season of the year, I will thank you to make my requisition for funds, sent forward this day, liberal, for the relief of the destitute.

I have asked for rather more than one-twelfth of the appropriation for wages, so as to have a margin for payments on the 1st August prior to receipt of funds.

Very Respectfully

A. E. Barythell

Superintendent.

July 8th 1892.

Hon. E. O. Leech,

Director of the Mint,

Washington, D.C.

Sir:-

I have the honor to request that you will [illegible] requisition on the Secretary of the Treasury [illegible] sum of Two thousand Five hundred ($2500) dollars, [illegible] appropriation for parting and [illegible] to aid in paying the expenses of this Mint [illegible] current month.

Very respectfully,

HON. EDWARD O. LEECH,
DIRECTOR OF THE MINT,
WASHINGTON, D.C.

Sir:-

I regret to say that in calculating the discount on prices for 16" 3ply Leather Belting offered by Robt. Lindsay the discount was on "Double Belting" instead of 3ply, and the bid placed at $1.62 ½ per foot.

Mr. Lindsay writes to say that the price would be at the question, as of course it would be. Upon a re-examination of the offers I find that Mr. Etheridge bid $2.31 ½ per foot for 16" 3ply Belting, while Mr. Lindsay's bid is $2.42 ½ per foot. I recommend that the award be to Mr. Etheridge, accordingly, and if you approve, will thank you to make the correction on the schedule of awards, Mr. L. being the lowest bidder.

Very respectfully,

O. C. Bosbyshell

Sir:-

The Commission appointed by the Secretary of the Treasury, to select a site for a new Mint building, met here to-day at 12 o'clock. They were all present with the exception of Mr. Singerly who, owing to an engagement out of town could not attend, but assured me by letter that he would be on hand at the rest of the meetings. Hon. Edwin H. Fitler was elected President and the Secretaryship was given to me. It was the unanimous wish of the gentlemen present to go right on with the business and conclude their recommend ation of the site without delay. They took a glance at a number of sites that had been suggested, and directed me to ascertain the assessed values of them, and as soon as that was accomplished the President was authorized to call a meeting at the office of Mr. Drexel.

I find on referring to the original schedule of bids for supplies that offers to furnish Linseed Oil were made by the following named parties, namely:

J. B. Backus, Esq
Bar Custodian:
Sir:

You will please take action of the accompanying letter from the Director and the request therein as respects the mode of entering storage bars on your books and the books of the Govt.

It will be necessary to take the standard ounces of all bars, under your joint charge from the Abstract sheets from May 1890 to June 30, 1891, in order to give the Treasury accounting officers the desired information. From June 30 forward it will be necessary for you to enter the standard ounces of each bar in addition to your present entry of gross weight. The calculation must be taken from the abstract sheets. It will probably be well to take the sheets next day after the calculations are made, and

make the standard weight entries, opposite each bar. The record should be kept up to date as nearly as possible.

Upon the return of Mr. Gross the Director's letter will be handed to him for his information. You will please copy such portions of the letter as may be necessary for your direction, and return the letter to me.

Respectfully Yours

With reference to your letter of July 15, inst, relative to standard weight of bars stored, I beg to say that I had supposed the stamps took & lowered the standard weight as well as gross weight, from the fact that all silver is taken up in our assets in standard ounces.

It appears that the Weigh Clerk did not so start the books, and Messrs. Baldwin & Gross have continued under the false start made. I regret this beyond expression, but can only say that your instructions have been communicated to the Custodians of bars stored, and the work will be hastened as much as possible.

July 17th

In reply to your favor of the 15th inst; in reference to certain entries made in my Bullion Account for the Quarter ended March 31st. 1891. in connection with Draft of a transfer of Uncurrent Gold Coin for recoinage the net amount of which is £32.178.95, I beg to make the following explanations.

This transfer was treated in the Accounts as a debit, crediting Deposit and Purchase Accounts, and charging Gold Bullion on its receipt, Deposit and Purchase Accounts were then charged, and Gold Coinage credited with the same amount; Transfer was then made to the Bullion Fund Account by immediately charging Gold Coinage, the whole transaction being treated as Coin, and ran through the Cash Account, and into the

2

Bullion Fund Account accordingly.

No credit entry was taken for it in Gold Bullion Account, as having been made into Gold Coin, but in Gold Coinage as a payment in Gold Coin from Deposit and Purchase Account; Gold Coinage being then debited by an entry to U.S. Bullion Fund, for the net amount as received on Transfer Order, and not in the item £482,400 debited to Gold Coinage as Coin manufactured; and as this amount remains at this Mint, and was not withdrawn by Transfer Order, the Bullion Fund was necessarily increased thereby, and it does not remain as an item of an unpaid Transfer Order.

I beg also to state, that the mode of procedure in this case, is identical with transactions of a similar kind that have occurred at long intervals during the past; and has been accepted without question, both by the Mint Branch, and Accounting Officers of the Treasury, the last one of the kind

3

being embraced in the Bullion Accounts of this Mint, for the Quarter ending Dec. 31st 1887 1887

With this understanding, and not having received instructions as to any different method of entry, up to the time of stating my Bullion Accounts for the Quarter ending March 31st 1891, I feel no error was made, or entry to correct, necessary.

In the future I shall carry all such Transfers to Gold Bullion direct, as per your letter of July 10th on the subject.

Trusting that the explanation herein given may be satisfactory

I am.

Immediately upon your reply to my letter of inquiry touching the Seventy-five Hundred dollar draft (Supp. Ord.) I notified Postmaster Field of this city of the non-receipt of the dft mailed on June 29: ultimo. The Postmaster replied yesterday, saying that he would at once have the matter investigated, and I delayed writing hoping to have some definite information to forward.

From your telegram of even date I conclude that you desired and expected a reply to your letter beyond what I wrote you on the 15th inst. I can only repeat that the draft never came to this office. It occurred to me that it might have been sent to some other mint by inadvertence. I have several times received papers intended

for other Mints and have reenclosed them to their proper destination, and I see no reason to suppose that the Treasurer U.S. is infallible in such routine.

I need the money to settle bills of last fiscal year. If further action on my part is necessary in order to have a duplicate dft issued I will thank you to inform me at once.

No remittance, public or individual, has ever been lost here since my incumbency. I do not think it can have been delivered.

July 21 1891

HON. EDWARD O. LEECH,
DIRECTOR OF THE MINT,
WASHINGTON, D. C.

Sir:

I have the honor to acknowledge receipt of duplicate Treasury Draft *37450 Tr. Warrant 7947, (original unpaid) for the sum of Seven Thousand Five Hundred (7500) Dollars, being part of Ordinary Incidental Appropriation fiscal year ended June 30. 1891.

Very Respectfully

SUPERINTENDENT'S OFFICE,

July 21 1891.

Sir:-

Mr. Barber informs me that his designs for the subsidiary silver coins, and the models, are now in such a state of forwardness that they can be examined by you at any time. Mr. Barber is not advised of your will as to the place of examination, but if you wish him to go to Washington with the models he will respond to the call. Should you contemplate a visit to Philadelphia instead perhaps it would be well to give a little notice, so that Mr. Barber can attend, or at least not be absent.

Very Respectfully

Acting Superintendent

Mint of the United States at Philadelphia, Pa.,

With reference to the gold coin from Henry Meeks, Toledo, Ohio. by you forwarded to this Mint for return of proceeds to Mr. Meeks, I beg to say that the piece is spurious, being of the spurious issue of the Eagle of 1849.

It is, however, in part gold, and I have had an assay made preparatory to return of the actual value of the piece to Mr. Meeks. The assay makes the fineness 346/1000, the lowest yet found of that issue. The piece weighs 225 grains, and returns will be made on the assay.

Sir:

In the absence of Col. The practice here is to mill rather lightly in order to give better effects to the edge of the coin.

Mr. Barber finds, also that the dies are not well centered and leveled, giving too much pressure at the top of the piece. Thus the dies show a crack near the top, and the lower part, with date, is imperfect

2
Ltr. 1
July 25

will observe that the inside border (dog-tooth) is sunken in the die, which requires milling enough to supply the extra metal to give the effect desired. The milling need only to supply that metal, but it needs to be "sound" in order to avoid the burr edge.

Ten pairs of dime dies were shipped to you July 24 and Mr. Barber informs me that he will have more ready soon. Your coins are not bad, and fairly average with mint work on dimes. They are not pieces to be ashamed of by any means, and the general public would not detect the slightest defect.

I return your coins herewith. Your letter has been forwarded to Col. Bosbyshell.

HON. EDWARD O. LEECH,
DIRECTOR OF THE MINT,
WASHINGTON, D.C.

Sir:-

On the 9th of July ultimo, the Superintendent invited seven Manufacturers of Machinery to offer for the construction and placing of one Double Draw Bench for the use of this Mint, and the following offers were received:

| | |
|---|---|
| Ferracute Machine Co. Bridgeton, N.J. | $1.900 |
| William Sellers & Co Philada | 2200 |
| Waterbury Farrel Foundry & Machine Co. Waterbury Conn | 975 |
| Orr & Hess Mch. Co. Philada | 1.650 |

The specifications submitted by Messrs. Sellers, Orr & Hess Mch. Co. and the Waterbury Farrel Co were sufficient, that of the latter Company accompanied by blue-print drawings. If you approve I will award the contract to Waterbury Farrel F. & M. Co.

At the same time offers for a quadruple shearing machine for cutting off and pointing ingots and fillets, were

asked of six Manufacturers, and the offers made were as follows:

| | |
|---|---|
| Geo. C. Howard, Philada | $600 |
| Ferracute Mchn Co. Bridgeton N.J. | 1000 |
| Waterbury Farrel F. & M. Co. Waterbury Conn | 485 |
| Orr & Hess Mchn Co. Philada | 500 |

If you approve I will award the contract for quadruple shears to Waterbury Farrel F. & M. Co.

At the same time offers were asked for three pairs of single shears for drawbenches, of the necessity for which the Superintendent is not wholly assured. But the offers were as follows:

| | | | |
|---|---|---|---|
| Geo. C. Howard | $200 each | (in all) | $600 |
| Ferracute M. Co | 200 " | " | 600 |
| Orr & Hess M. Co. | (for three) | " | 225 |
| Waterbury Farrel F. & M. Co | $195 each | " | 585 |

Mr. Howard sent a drawing & Waterbury F. F. & M. Co a blue print. Ferracute Co. and Orr & Hess M. Co. sent no specifications.

Geo. W. Brown, Esq.

Door Keeper

Dear Sir:-

Frequent complaints having reached the Director at Washington of certain irregularities in the conduct of the watches in opening the various operations of the Mint and the value of treasure stored in its vaults, I am instructed to make the following limitations to govern the watchmen in their dealings with visitors:

The Gold Vault contains about $18.000.000 in bar gold.

The large basement vault contains $7.000.000 in Silver Dollars, and there are stored in other vaults below about $30.000.000 in Silver bars.

You will instruct your force as to these facts, and further instruct them not to exaggerate these in

any way. Complaints have reached the Director of the Mint that the sale of the Mint book is by some of the workers urged beyond what is pleasant to visitors. You will caution your force as respects the sale of the History of the Mint, which is recognized as a valuable publication at the Department. But visitors must not be made to feel that they are under any obligation whatever to purchase books. Please instruct your force that, after giving visitors an opportunity to examine the book, they are to be left to purchase or not, as they may choose. Visitors are to be treated without favor or partiality in the distribution of medals, and are to be informed that the book is the property of a publisher not connected in any way with Government service.

Should these cautionary orders be violated, and the violation become known at Washington the sale of the book will be prohibited by the Secretary of the Treasury.

Respectfully

Wm D. Wheeler, Esq
Assayer-in-Charge
Helena, Mont.

Sir:-

Referring to your letter of July 31. ultimo, relative to Shipment No. 1. I have to say that the value of your bars was correctly stated at $28.121.84, the small bars having been by an error carried at their weight before melting, namely 1579.30. The weight after melting was 1579.10, and the calculation was made upon that weight.

I regret that this clerical error occurred, but as the transfer order is already in our accts and the value is correctly borne in the order no serious disturbance of the a/c has resulted. I send you corrected Memoranda.

Very Respectfully

HON. EDWARD O. LEECH,
DIRECTOR OF THE MINT,
WASHINGTON, D.C.

Sir:-

I will thank you to substitute the enclosed Memorandum of Shipment of gold from Helena A.O. to No. 1 for the one forwarded in July ultimo. By an error in transcribing the clerk carried the weight after melting, last item in first and second columns at 579.30 whereas it should have been 579.10 as it now appears. The value was derived from the latter weight, and there is no change in that respect.

I have sent revised Memoranda to Mr. Wheeler.

Very Respectfully,

Acting Superintendent.

Assayer-in-Charge
Mint U.S.
Denver Colo.

Sir:-

Referring to yours of the 3d inst. relative to discrepancies in the Denver and Philadelphia weights of certain bars comprising your shipments Nos. 1 & 2 gold bars I have to say that our Weigh Clerk has had your letter and criticisms under consideration for several days. He submits to me the following comparative statement of weights, bar by bar, an examination of which may elucidate the matter in controversy: I will, however, say, that I am at a loss to determine your precise meaning when you allude to "deductions "legally made here on our purchases of bullion that "inure to the benefit of the Melters &c." If you mean your own Melters &c and do not take into consideration

Denver Mint

the account of the Melter & Refiner at this Mint. Our deductions have been made according to Mint Regulations Page 12, and we make no other, but give credit according to the weights on our scales. Below I present the comparative table:

| | Denver weights No. 1. | Philada. | Denver No. 2 | Phila |
|---|---|---|---|---|
| Bar # 1. | 209.61 | 209.60 | 400.75 | 400.62 |
| " 3.1. | 204.25 | 204.25 | 317.05 | 317.05 |
| " 6.3 | 417.51 | 417.50 | 202.24 | 202.24 |
| Mass 1 | 515.24 | 515.20 | 216.75 | 216.75 |
| " 2 | 500.93 | 500.90 | 271.37 | 271.37 |
| " 3 | 548.05 | 547.85 | 516.07 | 515.99 |
| " 4 | 657.03 | 656.75 | 506.18 | 505.98 |
| " 5 | 683.41 | 683.40 | 517.31 | 517.29 |
| | | | 696.11 | 696.— |
| | | | 589.57 | 589.61 |

You will observe that the discrepancies pertain to the Mass Melts, and I may suggest that unless you toughen your metal such losses cannot be averted. I believe the Director has suspended the rule allowing deductions in behalf of our Melter's a/c in so far as transfers from the Assay Offices are concerned.

Very Respectfully,

O. C. Bosbyshell

Sir-

The need of a fire proof for the safe keeping of the account books of this Mint has been urgent for years. The ledgers and other account books have no protection against fire, being kept in wooden closets.

The Farrel Co. offer to furnish a duplicate of the safe furnished the Engraver at the same price $295 which is the lowest price under competition that I have found. This kind of safe (fire-proof) is sold at about $350 in open market. There will be funds enough unexpended to cover this expenditure, and as it must, soon or late, be incurred I recommend the purchase of the safe.

Very Respectfully
